## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-20, 28-30, 31-49 and 57-59, drawn to routing calls based on certain criteria, classified in class 379, subclass 211.01
  - II. Claims 21-27, 50-56 and 60, drawn to Graphical User Interface (GUI), classified in class 345
- The inventions are distinct, each from the other because of the following reasons:

Inventions of Group I and Group II are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the claimed method/system for routing calls of group I does not require and can function without the claimed GUI of group II. The subcombination has separate utility such as the GUI may be used for any other services.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, and these inventions are distinct for the reasons given above and have acquired a separate status in

Art Unit: 2642

the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. John D. Crane at (972) 695-8442 on 10/16/02 to request an oral election to the above restriction requirement, but did not result in an election being made. A busy signal was encountered every time a call was attempted.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication should be directed to Examiner Rasha Al-Aubaidi at telephone number 703-605-5145
